

# Humanity's Final Frontier

Peace I leave with you.

**When humanity is willing to learn, how not to become offended, then there becomes no offence, and if there be no offence, there is no sin. No sin, no war, left only with Peace. For what you believe determines your behaviour and therefore not only are we personally responsible for the consequences of our own actions, but also the beliefs that got us acting the way that we do.**

Eternity is intrinsic to all humanity. Peace is within you. The question remains are we in Peace? Where will we spend our eternity, in peace or Peace? We are all forgiven. None of us know 5 seconds in front of us, we know not our own futures, simply think that we do, but we don't. As what we don't know remains greater than that what we do know. Good News. Heaven's war is over! The Kingdom of Peace is at hand. Hallelujah. The Prince of Peace has defeated the prince of the air. And Jesus has been declared: King of Peace. The world Adam and Eve, even our parents left us in, has only thought two ways, right or wrong, a black or white perspective. Jesus left us with His wisdom, get above right and wrong and do what is best. Find better.

The only true holy war is the war against war itself, a battle against our endeavours of abstaining from fighting by choice. An assault upon our smiles. It is a war already won; yet Peace still eludes us. Victory over judgment, care over control. A war won not against flesh and blood but rather a battle against inappropriate attitudes of prejudice, spirits of ill-will and agents for discrimination. Can we save the embryo only to send to war? Lets get the rocks out of our head and under our feet where they belong. Lets get rid of war, providing an environment for better families for the unborn to enter into, and restoration of our planet, yea? Victory over judgment is sustained in the application of Matty 7:12 Considering only right from wrong, robs us, our children, and our nations of hope. The west is currently at the mercy of its own consequences of being caught up in a stampede, the rush of consumerism, driven by escapism, and all of it's dysfunctional behaviours, derived by running from the condemnation, the guilt, and the shame, of being wrong, and consistently having that reinforced by the attitudes of our peers. The frustration of not being heard resulting in anger from not being understood and therefore becoming more volatile in not getting what you want, your right, when you want it. Anger mixed with self-righteousness can quickly develop into explosive situations of uncontrolled rage unchecked. Better to manage the trigger, of the risk to a problem before there is a problem, then to manage the problem after the risk has become manifest. Simplistic but true from the perspective of experience. When you think you're wrong, and think you're wrong long enough, the body begins to produce the wrong chemicals, and the body goes into shock. Believing it has lost its head and so endeavours to put the body into auto-pilot until the head, can come out of the chaos caused by only considering right from wrong and takes the quantum leap forward into doing better, when the body is only too happy to surrender to the hope of better health and longer Life, and having the opportunity to smile, once again.

The hope of better can save our nations lots of pain, anguish and money. What is it we are all so fearful of? The fear of being wrong, instead of the broadening opportunities being wrong presents, the opportunities to do better. The opportunity to learn better how to do your best more excellently. The fear of being wrong is deadly, overcome with the hope of better, and with the contentment achieved in the satisfaction of moving forward, maintained in the doing of Matty 7:12. Meaning, finding contentment is better than the pursuit of happiness. You can't be content while you're chasing, but you don't have to be rich to feel rich. Peace of mind better than a warring heart delivering tears of sadness. Freedom is seven and a half billion interpretations not 71/2 billion slaves to one. So by changing your mind you can also change your behaviour, weight and equilibrium, peace of mind, so long as the actions change, for it is in action that weight and the cost of in-action is burned off.

There is much freedom in the acknowledgement and acceptance of the human condition to become addicted to the feeling of being right, and right no matter what, even to the death. That's the curse of the garden. It is truth that sets us free from the chains of yesterday's traditions, cultures, and ways of life, lifestyles, which have brought about dysfunction, war and tears. Human nature is possible to alter given the tools to understand how you thought your way to today. Climate renewal becomes important when humanity realises that our global mind and workings of humanity, (our beliefs and behaviours) have brought us to a point, where humanity now faces the possibility that our global environment could bring about human extinction. Our beliefs and behaviour have brought us to where we are today, facing global human devastation within 40 years. Honestly how did humanity come within 50 years of self-destruction? We can continue on doing the same things and hope for a different result however if you do the same you can expect the same result. Believing otherwise would constitute denial of truth, and therefore is displaying of our need for doing different, for if we hope for better without doing better, in reality we do the same. What does it all mean? It means that self-righteousness leads to fighting and all types of violations toward others. And understanding leads to Peace and kindness toward others. **While our society continues to delude itself, and believe the lie that it can be right without hindsight and therefore strives to do the right thing instead of striving to do the better thing, we will continue to have a more abusive and more violent society. Better and best supersedes both right and wrong. We only fight for what we believe is right, supersede the belief and we supersede the fight. We supersede violence.** Therefore if we decrease our use of self-righteousness and increase the use of understanding, we are on the way of Peace. United in this new security of synergy, developing the sea of empathy, our society can only produce harmony and contentment. Most would consider this to be happy. We can actually achieve a happy society.

Caring for others the way that we would want others to be caring and respectful of us generates a better formula for social and economic success for all as trust and mateship is formed in its doing, more often than not, favour is found for all and fortune soon on its heels. Mateship is a bloke's term for caring and that fair Australia wants a fair world for all and this maybe and hopefully contributing to it. The concept of better breaks down the partitioning wall between the concept of right and wrong, and better is victory over judgment, Grace, the Law of Liberty found in the Gospel of Peace, the non-judgmental, non-discriminatory, non-prejudice, non-violent way of peace expressed in the doing of Matty 7:12 and possibly the heart and soul of all of the eternal human survival and sustainability stories.

The death penalty, along with, the customer is always right, both are misused, abused misconceptions, fallacy, and lies destroying any culture of integrity and driving a compelling madness that has exploded across our globe found worthy of eradication by means of truth and grace. They are the deceiver and the accuser. Both condemnation and false doctrine developing further the concept of right thinking over better thinking and spreading amongst us as yeast to dough. Overcoming these two Giants is victory not against flesh and blood but a victory for care. Australia's death

penalty, divorce, is a terrible thing and not only on the rise in our own homes but also in the workplace. Unamicable and unresolved divorce is not good leadership and nor is it of God, but rather a declaration of non-reconciliation and a failure in belief of all that He has done for us, a failure of integrity to faith in Jesus Christ. Contemporary leadership has fallen victim to its own self-indulgences into power over others, more than the care of others and this basic ideological flaw is resulting from a belief in a two-tier system of justice, double standard ethic of hypocrisy it promotes. Leadership expects its populations to live non-judgmental lives to code, that leadership wrote and particularly regarding the caring for their customers, while leadership itself sets itself as judge, jury, and executioner over its own code over others, yet not itself.

It is sad to see a no divorce policy for the masses yet for leadership divorce is not only decreed but also let's add demonization to boot. Be assured of this, Jesus, God's King of Peace, will never divorce His Peacemaker's for Peace, His Citizens, doing His Royal Law contained in obedience to Matthew 7:12, the law of Life and His law of Liberty found in His Gospel of Peace. For what makes us think that when we get to heaven, we would get in without knowing that kingdom's Name, as even the devils know the name of Jesus. So how well do we know a kingdom when we know not that kingdom's name? How is that seeking first God's Kingdom?

Please we encourage you to remember the victory already won, the devil is defeated, for they loved their lives not unto death, but unto Life and life forevermore. For the victory is already ours, even in death. As it was Jesus who left us with the word of reconciliation, Peace, and also said, "be of good cheer, rejoice, I have overcome the world. You can live lives free of offence, stay in Matty 7:12, My Way of Peace. For I am the Author and the Finisher of your faith. The crazy thing is that the entire Creation is crying out for change and humanity to its own detriment continues on in its merry way to its own demise. Silly more than sad.

Seek Peace. Remember the poor. Peace is Grace is flowing in the ever-increasing sea of empathy and goodwill that doing Matty 7:12 brings. Indeed His Kingdom Come, His will being done. Peace on Earth as it is in Heaven, goodwill to all, Men, Women, Children and planet. In Heaven only God is Right. The concept of right thinking opposes and robs us of better thinking and without better thinking the best will never come. Right thinking is not the better thinking yet better thinking is the right thinking. Thinking better draws us nearer to God whereas right thinking draws us nearer to self-deception. Now if we were to sweep our house clean and fill it not with better, the end would be worse than the beginning. Scripture suggests that the way of Peace we have not known and this correction was of long ago and thus Testifies to our own forgetfulness of there actually being, a way of Peace, and in turn the way of Peace we have not known otherwise Peace would be and in our life-time. In our time we haven't even known Peace let alone it's way. Sure peace has been amongst us but not Peace. Which brings me to Easter and the Joy it brings and leaves with us. Cheer up. I have overcome the world. You can live free of offence. Stay in Matty 7:12, says Jesus. Remembering that through it all, all that those who would rather control more than care could throw at Him, even through His death, through it all, it was His cry that His Father responded to. Yes. I will forgive them for they know not what they do. All are forgiven. All can forgive. All have access. The Good News of Easter is that we can both re-discover and re-connect both with Peace and its way.

Can you hear that sub-cry crying out, that our forgetfulness of the way of Peace has resulted in a way of violence and our way of violence has failed them, their collective and therefore justifiably in their own sight, they now do what they want, when they want to do it and with whom they want to do it with by means of their own way of force, having an attitude of defending unto death and not unto life brazenly expressed in a challenge of stop us if you can? And once armed, militarised and united we have hitlerism all over again, self-righteousness gone mad with discrimination and the drunkenness of the power it wields upon the disadvantaged it oppresses with its terrorizing brutality and spread of fear, and modern society gaining nothing other than the consequences of more oppression, pain and destruction over creativity, peace and hospitality toward each other in our modern global society of the free and productive, whom still believe for the grace produced in adhering to the better, non-judgmental way of empathy pouring out in the caring and respecting of others the way we would want others to be equally caring and being respectful of us and at all times unto our life ever after and not unto the death of another or our own. Violence opposes peace, pardoning, purity, production, prosperity, perfection and Paradise.

Our society's collective behaviour has led our growing children to believe that freedom is being empowered to do whatever you want whenever you want to do it. Reflected in the behaviour of celebrity, rich, powerful, and famous. Superstars can do anything is the corrupted belief in need of redressing if society is to avoid turning out more and more self-gratifying abusers of others often referred to as bully or brats. Sure, parents need to teach their children right from wrong however they also need to teach the concept of better and best, even The Golden Rule of Peace. The concept of better and best supersede the concepts of both right and wrong, lifting the human spirit beyond their ensnaring quagmires of discrimination and condemnation while the universal law of freedom producing human equality through empathy and goodwill alleviates the human soul of the need to be right with the superior reasoning and more noble pursuit of achieving a better outcome for all and in turn, alleviating the human soul's natural desire to fight or defend unto the death with grace and a truth settling both heart and mind resulting in a human contentment that comes in the vulnerability of sharing part of ourselves with another. Understanding that hospitality overcomes hostility, that violence is a redress-able, un-learnable, taught behaviour and that there is always the hope of better available to the human heart and soul, can steer our world into a better world for tomorrow knowing that collectively seeking better will produce a better collective result, for when we seek better, better is what we will get because it is better to be drawing nearer to God than to be not. In a nutshell, if you wouldn't like it done to you than don't do it to others is a pretty good general rule of thumb toward helping others more than causing harm to others.

Self-righteousness is the root of all violence and violence is developed in the narrowing of considerations to a perspective emanating from our own understanding and interpretations of our own cultural traditions forming the values perceiving right from wrong in the context of its own light of history. Minority groups, fringe dwellers, sub-cultures, all are always under the microscope of the greater society because the greater society is always vigilant endeavouring to weed out anti-social behaviours to avoid its house from falling. It is false to believe that anyone can do whatever they want, whenever they what, and with whom ever they want for more than a season and that this is a sustainable way of happiness developed outside of the human contentment received in the doing of the perfect will of God, as an undisputable child of God our eternal. Peace is more than possible. Peace is achievable. Peace and the governance thereof is the perfect will of God being performed by God Himself.

Peace is better than war and help produces more than harm while a little thank-you goes a long way to opening the door of hospitality. There is but one God, call Him what you want, but in the end it will come down to doing His Will or not. God is God of All. Mankind knows not what he does because he knows not what the future may hold and therefore due to the diligence of the work of the cry of Jesus of Nazareth from the cross, all Mankind has been forgiven, all sin, past, present,

and future, and already forgiven, God Almighty has extended His inheritances to all mankind and now has one family of man, many tribes but only one family of men, women, and children, whether we believe it or not, all is forgiven, all can forgive and all have access to via the one spirit of conscience to the living God of all creation. The simple cry, God be my conscience for me, transforms human life. And that God is also, God of Peace. The Matty 7:12 Peace train is not such a hard train to catch and be a part of, even promote, for the law of freedom has served us well, and in turn shouldn't we serve it well as well? In peace there is no violence, in the better lies all hope and the more Godly war is the war against war.

The way of Peace is found in the doing of God's righteousness and the righteousness of God expressed in human terms is found in the doing of Matty 7:12, the Royal Law of Heaven, the non-judgemental, non-discriminatory way of producing more Grace and Truth flowing from

God expressed in human terms is found in the doing of Matty 7:12, the Royal Law of Heaven, the non-judgemental, non-discriminatory way of producing more Grace and Truth flowing from doing and being more obedient to, this Law of Liberty found in the Gospel of Peace. Matty 7:12 has become the vehicle to ride the super-highway to God and has been a good keeper of us all, through it all. The simple cry, God be my conscience for me transforms Human Life. Peace is Heaven's Name, Meaning, Will, and Glory and Matty 7:12 achieves it with Grace and Truth, His Know-How. So there is a solution, be it spiritual, to all our economic and social woes. The difficulty remains in implementation, in distribution and dissemination, the logistics of delivery is hindered and halted while the relationship between the beginning and the end remains broken. For how will anyone know if nobody tells them? Unravelling the contradiction found in the wearing of the Yoke of Freedom, the law that sets us free from both sin and death, the accuser and the deceiver setting us free to abstain from fighting and victory over violence, Humanity's final frontier. Pray, lest we forget forever Peace is better than war and as we turn to Peace, peace is what we will get, along with the prosperity, just as our souls would prosper. Please pray for the Peace of Jerusalem, and Palestine sovereign by years end. Peace is within our means, let the Dove be Free. God is willing; the question remains are we prepared to care for others more than try to control others. Love more than hate, Peace over war.

The world Adam and Eve left thinks just two ways, right and wrong, black or white? Jesus leaves His Grace and colours our world. Elevating us up above the ensnaring world of right or wrong, up into doing and asking what's best for all? We can learn to swim in the Living Waters of empathy. Truth has at least 3 sides. Three-way thinking is more creative than two-way thinking. What we don't know is always greater than that what we do know. Self-righteousness reflects pride, and is the root of all violence. Since all paths of wisdom are Peace, self-righteousness is anti-Christ. An all-wise God can be right, the best we humans can do, is do our best, find better. We can smile more. Laying down our own righteousness, our prejudices, our traditions, our customs, our own understanding of a Holy Kingdom, our own truth, our own judgment of right or wrong, we can hear. This opens the way for patience and understanding to enter our minds and to discover what is best for all. In Peace, all things work out for Peace. We can listen, learn, and help more.

Jesus recovers our liberty of conscience broadening perspective to be all-inclusive, reconciling, allowing us to live in and by our Peace of mind, rather than in and by the judgment of men. Life leaves black and white and marries Gold. We can embrace empathy until our need for an apology becomes a need to apologise and then be thankful for such a maturing experience. We can forgive more. Heaven is in your heart. Your heart is your conscience. Jesus wants you, to share your conscience, with Him. Jesus wants to share His Peace with your conscience, developing His Spiritual Kingdom of Peace in your heart. This is living in and by the Spirit of God. All things are new again. We can be free to be ourselves more. Heaven's war is over. Death is defeated. Life is eternal. We are all forgiven for going our own way, fighting over what is right. For the way of Peace we have not known. Heaven's name is Peace. Peace is more than a feeling; it's actually a living place. The Very Home of Jesus Christ can abide inside of you!

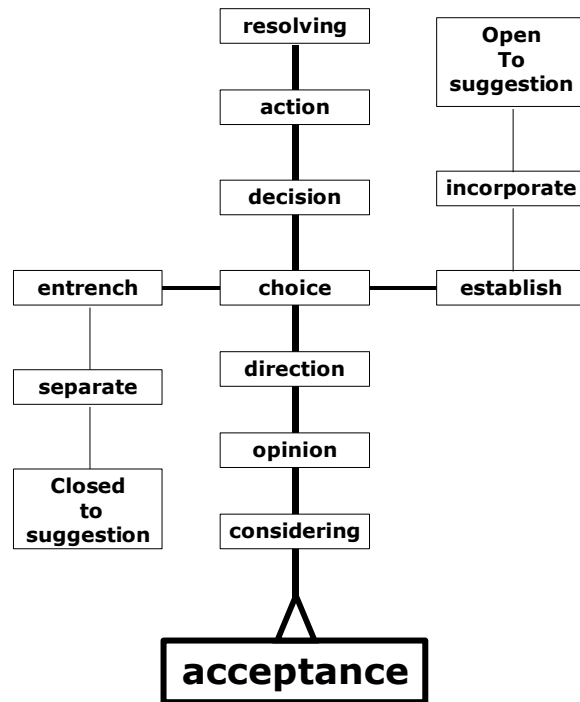

Will you come into Peace with Heaven? Heaven wants to come into Peace with you. The simple cry, God be my conscience for me transforms Human life with trust and respect allowing you to trust that voice within once more. Simply say, "Peace: Come into my life." Now, put your faith in what Jesus said, Do unto others, as you would have them, doing unto you and believe in it's ability to produce Peace. This sword of Peace exposes the intent of our own hearts. It is our New Testament Righteousness in Christ. Here lies the worship and blessing of Jesus Christ, the patience and the faith of the Saints. Enjoy, Listen and Be Kind. Serve, as you would want to be served. You can share this Gospel of Peace as we hope it maybe of some value to you in this concept of abstaining from fighting, superseding violence, and learning to live a life of Peace and Goodwill and the care of others more than trying to control others, situations and events instead. The ABC to Christian life being;

- A) Ask God to be your conscience for you, then, you can trust the voice.
- B) Seek Peace, God's Kingdoms' way: learning how not to become offended, more forgiving when we are, for all are forgiven so all can forgive and with it comes access to the voice of God.
- C) Be doing Matty 7:12 at all times for Christians will be judged according to their obedience to it.

Who knows the Pharisee may begin to lift the burdens it has placed on its own people since Acts 15 and our world allowed to become free to do better, together, once more. Peace is better than war, and climate renewal and poverty eradication are good reasons for maintaining, and all the more, winning the peace. Please seek Peace in all that you do and be doing Peace in all that you may seek, for Peace is Grace is Doing Matty 7:12 and is of God. Eternity is forever but time is short, the harvest is greater yet the worker fewer. Peace I leave with you. Can we take ownership and be more responsible for that? Yes We Can.

Yours in Peace  
John 20:21.

A process of considerations forward.

Forgive, God forgives us.

Kindness

Truth

Be caring toward others,  
as you, yourself, would have others, be  
caring toward you.

Only God is right.  
Enjoy, listen, and be kind.

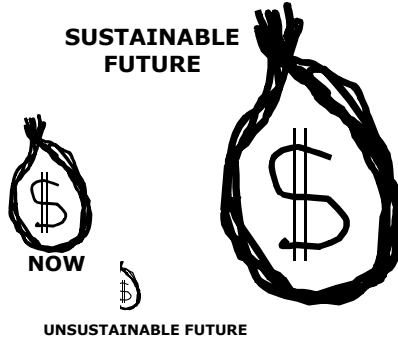

# Thinking Better

contentment

more excellent
best
better
right
wrong

Not unto death, but unto Life.  
Rev. 12:11

UNDER LAW To the Death.  
1 Cor. 15:56

**CHOOSE LIFE.**

## PEACE IS BETTER THAN WAR.

When one is willing to understand, that when one is willing to learn how not to become offended, there becomes no offence. And, if there be no offence, then, there be no sin. And if there is no sin, there is no war and we are only left with Peace.

### A Better Road Map to Peace.

From Strife:

And being under the cloud of the judgment of society.  
"Are you doing the right thing?"  
I can be offended.

A Lean heart of believing you can be right.

Only The All-Knowing can be right.  
We only fight for what we believe to be right.  
And that only leads to WAR.

As human beings we need hindsight to be right regardless.  
Alter the question and get a different result.  
The question can become help and we move to...

To Joy

To the freedom and rest of asking a better question.  
Remembering that what we don't know is always greater than that what we do know.

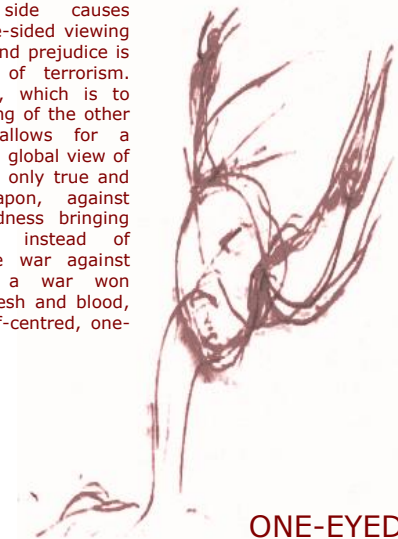

The Rock unto which we can build better lives.

And we receive a big Fat heart of generosity  
A Big heart of Love, listening, and learning how not to be offended,  
**Henceforth Peace forevermore.**

## BLIND FREDDY

Could see that the one-eyed monster of seeing from only one side causes terrorism. One-sided viewing is prejudice, and prejudice is at the root of terrorism. Understanding, which is to say, the gaining of the other perspective, allows for a more balanced global view of all, and is the only true and effective weapon, against closed mindedness bringing about terror instead of harmony. The war against terrorism is a war won fighting not flesh and blood, but rather self-centred, one-eyed attitudes.

**ONE-EYED Monster of Prejudice.**

Are you doing the right thing?  
I can be offended.  
Cries the monster

Please for your prayerful considerations.  
**Peace: a conscience continually returning unto Matty 7:12.**

**The LORD will perfect that which concerneth Australia.**

Surah 17:66.

# MEMORANDUM OF UNDERSTANDING:

As Citizens of Peace we understand that:

**WE ARE CHILDREN OF GOD: PEACEMAKERS**

Our true self-esteem comes from knowing we are children of God.  
In all time past, and all time to come, there will never be another, you nor, me.  
This makes us both very valuable to our maker.

**WE ARE DIFFERENT, YET IN MANY WAYS THE SAME;**

You are a complete human being, so am I.  
Of course we see things differently, yet we can still empathise.

**WE ARE RESPONSIBLE FOR OUR OWN ACTIONS;**

And accept responsibility for the consequences of our own actions.  
We understand that forgiveness is the key to opening Heaven's door.

**WE ENJOY, LISTEN AND ARE KIND: Joy is our strength.**

Listening is the alpha and omega of any relationship, and kindness speaks for itself. The Peace of God surpasses all understanding.

**JESUS IS LORD OF US ALL: Jesus is the KING OF PEACE.**

Peace is heaven's Name, Meaning, Will, and Glory. Peace has entered us.  
Jesus is our Peace is our God in our Heart. Jesus is OUR Conscience.  
Matty 7:12 OUR evidence. Truth has at least three sides;  
your peace, my peace and God's Peace.

**ONLY PEACE IS RIGHT AND HOLY GRACE AND TRUTH.**

WE HUMANS GET THE OPPORTUNITY TO DO OUR BEST  
In the seeking of His Better Hope, His Kingdom Come.

**Our Code of Conduct is Doing Matty 7:12**

## GUARANTEE

### IT IS DONE.

Our Guarantee is this, The New Covenant, the paraphrase is ours,  
Jesus says:

"I'll give you Peace of mind, you give Me your rightness.  
I'll give you my Holiness, you establish My Peace.  
I will be your God. You will be my People.  
And we'll have a wonderful marriage of Spirit,  
Together under the blessing of our Heavenly Father in Peace,  
through my personal revelations and ideas to you. Let Me share your  
conscience with you, and let Peace be the umpire of your  
born again, shame free conscience, once and for all.  
For all is forgiven! Do unto others, as you would have them do unto you.  
Be fire baptized, burn-off self-righteousness and receive Holy-Spirit guidance  
toward Peace in your conscience now,

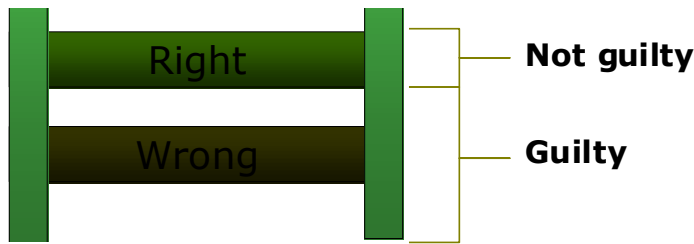

With your verbal response, are you My Citizen of Peace?"

**Jesus is our Righteousness**

## JESUS IS OUR KING.

## The Ladder Of Integrity Toward Conscience

### Under Law

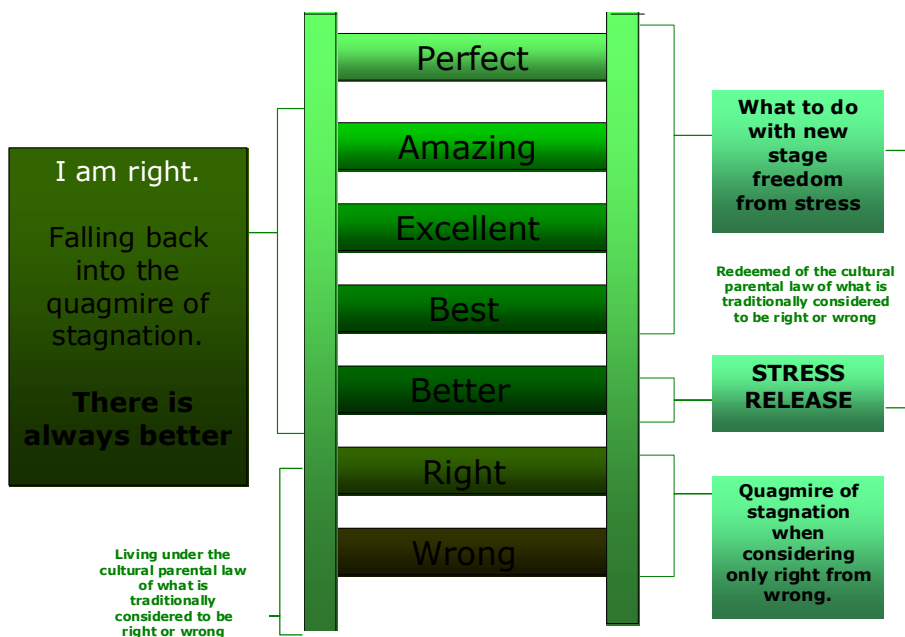

Right choices produce the right result. Wrong choices produce the wrong result.

A Hope we can all trust for:

Peace and the Governance thereof.

## The Ladder Of Integrity Toward Conscience

## Unto a Faith in a Spirit-filled led Life.

There is always a better hope on offer and hope leads us nearer to God, and the revelations found in that better hope that lead us on into faith and faith, to the bringing into manifestation, the evidence of things not seen, and the substance of things hoped for. And if a faith, a faith unto who other than The Living God of All Creation, The Holy Spirit of God.
